

Service Alert – Severe Weather Service Disruptions

Dear Customer,

As Met Eireann have issued red, orange and yellow warnings in relation to Storm Barra from 0600 Tuesday to 0600 Wednesday, we expect considerable disruption to all shipping services, which will likely continue for the duration of the week.

Haulage operations in the south-west and coastal areas may also be impacted by high winds and the high likelihood of fallen trees.

As a result of the above, delays to all international cargo should be expected.

Many thanks
Plexus Freight
