

## SPANISH STRIKE UPDATE

Dear Customer,

We are writing to inform you that unfortunately due to the ongoing issues in Spain as the strike enters the third week, the knock-on effects are being felt across Spain on the roads and in the supermarkets and restaurants, with truck drivers blocking key roads, ports, industrial areas and intersections with their vehicles with collections and deliveries not able to take place.

The Spanish government did offer the drivers a package however the truck drivers have refused this meaning the situation in Spain at present does not look like it will improve this week, we will of course update you with any further developments in due course.

These strikes will have a knock on effect on deliveries and collections this will lead to severe delays in the coming weeks.

In regards to the ETA's sent through in the last 3 weeks we have removed off the portal and as soon as we get confirmation of the goods being collected, we will update the ETAs accordingly.

Thank you for your understanding and patience during these difficult and challenging times.

Kind regards,

Plexus Freight
